## E-ZAVOD / E-INSTITUTE

E-institute is a non-profit institute with mission to improve human well-being through sustainable development. Actions are implemented through projects focusing on business support, open innovation and sustainable energy. We believe cooperation and co-creation is the key for solving the challenges of modern world. Our key competences are in open innovation, living labs, sustainability assessments, energy efficiency and renewable energy. ICT technologies and internet of things will change future perspectives as much as social networks did it in the past few years. Recent focus of E-institute's work has been done to support Smart communities and develop regional economy towards Innovation 2.0 concept and bring it even on the higher level.

E-institute team is multidisciplinary with rich experiences in project management. E-institute cooperates with the most important Slovenian public authorities, private sector and research institutes. Over last 5 years E-institute was partner or lead partner in 17 EU funded projects bringing together more than 100 partners from 20 EU member states.
